12/03/19 - 13/03/19	National Institute of Dramatic Art	Screen Acting Essentials	Acting

Notes

Since an early age, I've been enrolled in sports such as swimming, gymnastics, golfing, tennis, figure skating, downhill skiing, just to name a few as well as in the arts such as classical piano, dancing, ballet, and singing which all have contributed to my growth and development.

In 2001, I won 3rd place at a Provincial level in figure skating.

In 2003, I won 3rd place at an International level in classical ballet.

My years in a professional choir, founded and directed by an accomplished musician, actor, dancer, entertainer and entrepreneur, have helped shape my character and personality which instilled in me discipline, dedication and deep passion for my skill in the performing arts as a musician, artist, actor and performer.

My choir experience and travels have also led me to perform as part of Canada's ambassador choir in entertaining foreign ministers and world dignitaries while abroad in China, Japan, and other countries, as well as on world stages alongside international artists such as Céline Dion, Charles Aznavour, Robert Charlebois and many others.

The numerous 'live' performances of the resident Gregory Charles' Black & White shows at Montreal's Bell Center (Canada) have certainly shaped my career and have been a defining moment in my life on a world stage.

Television and radio appearances, as well as CD recordings in studios were equally defining.

Black & White gained instant success with 87 live stage performances, 325 000 spectators in Montreal only. The stage production garnered astounding reviews and received the Canadian award for best show in 2003. The Gospel Live in Black & White album was credited platinum in 2004 and double platinum in 2005 making it the second most sold album in Canada, in 2006.

Over the years, domestic and international tour travels included much of Europe, North America, Asia and South Africa.

Performing the above activities simultaneously provided a life rich in experiences well into my twenties. I quickly learned to adapt and manage my constantly changing schedule in order to be successful in all disciplines. These experiences have enabled me to become who I am today and could not imagine living otherwise, discovering and fulfilling every passion.

In 2011, I graduated from a Bachelor's Degree in Business, specialising in Marketing, in Montreal Canada. I later moved to Florence, Italy, to complete a Master's Degree in Fashion Styling and Art Direction where I subsequently lived for a few years to work in the field.

I have since fully immersed myself into Acting as this is where my true passion lies. I have studied and attended various programs, institutions for both Screen and Theatre. Institutions attended include NIDA under the teachings of Pip Edwards, ACA under Troy Harrison, SAS with Hunter McMahon and lastly Dramatech taught by logie award-winner Jeremy Shadlow.

I am currently involved as an Executive Producer, Actor and Screenwriter for a feature film entitled 'The Story of Nadia' which is loosely based on true events experienced in my lifetime. As I am involved in pre-production, filming will take place mid 2021.

Further details shall be available upon request.
