PROFILE

My name is Marcus Catt and I'm a trained actor represented by Azalea Management. Since 2023, when my journey of the acting game began, I've studied under different coaches in their workshops, learning their techniques and consistently refining them into my work.

Before finding my life's purpose and passion in the dramatic arts, I spent five years learning behind the lenses in filmmaking. Both the experience I gained during my studies and the people I've met along the way during these years have shaped the person I am today and further my career.

Now, since then, I've taken part in various people's projects, ranging from short films, stage shows, a couple features, and notable television productions as an extra, the latest being Netflix's upcoming "My Brilliant Career".
