Reference for Megan Dale

I'm delighted to recommend Megan Dale for representation. I first worked with her as a teenager when she played a young Rachael Blake in my AACTA-nominated feature film *The Second*. Even at that age, she had an impressive natural presence on screen, with a quiet confidence and depth that set her apart.

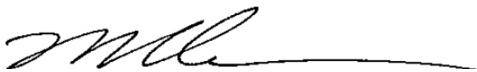

Megan went on to complete a Bachelor of Acting at Queensland University of Technology, where I had the opportunity to direct her in location projects and her final showreel piece. Over that time, I witnessed her growth into a bold, intelligent and highly skilled actor. She is a deeply cinematic performer—her striking beauty is matched by a capacity to communicate with remarkable subtlety, often saying more with stillness and restraint than with words.

What distinguishes Megan is her willingness to push beyond her comfort zone, her bravery in exploring complex choices, and her absolute dedication to her craft. She is hardworking, gifted and consistently brings thought, nuance, and truth to her performances.

Megan is absolutely ready for the next step in her career, and I have no doubt she will make a real mark with the right representation.

Please don't hesitate to reach out if you'd like to hear more.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mairi', followed by a long horizontal flourish.
