BIO

Olá. I'm Gemma and I own over 200 plants.

Horticultural passions aside, my love for acting cemented with my first musical at eight years old. I joined a semi-professional theatre society and performed on stage for 10 years before I chucked on some film shoes.

Telling stories is what I want to do in life. Acting's the medium I've sunk my teeth into; it's a path I intend to explore for the next several decades. After experiencing more of life, writing and directing will be the next oyster. Hopefully I love it more than sea snot in a threateningly sharp shell though.
