

Angelina Kondakoff

Growing up in an Eastern European household, Angelina possessed a passion for traditional, performative art forms whilst inhabiting a hunger to extend her knowledge in contemporary acting. It is due to her recent completion of the Diploma of Stage and Screen Performance (2023) coupled with part-time studio courses at NIDA which has facilitated her fierce approach to her work. Angelina involves herself in an array of creative ventures, some of which include appearing in a McDonald's television commercial and princess party entertaining for children.
