

Bailey Parker Biography

Bailey was born in Singapore, raised in Bali and forged in Australia. His Dad reckons he's lean and mean but he's mum's favourite child because he's the sweetest person she knows. He has travelled around the world plenty, visiting parts of America, Europe and Asia whilst living in areas that have white, brown or even black sand beaches.

His love for his family, being under the sun as well as in and around the ocean is undeniable. He began a four year Bachelor of Landscape Architecture course at UTS when his passion diverted to wanting to become an actor after the first year of study.

Bailey completed the Beginners Acting Course at Screenwise taught by Anna Lee over a 6 week period before realising and cementing his desire for acting. He then decided to take the craft further by applying and being accepted into the 2 year full time Advanced Diploma of Screen Acting at Screenwise in 2022, where he is taught by a multitude of industry level professional actors who have given him the tools he needs to amplify his acting repertoire.

He also got the chance to collaborate with AFTRS students to complete a series of short scenes, gaining on-set experience and playing a variety of characters in a differentiation of genre styles.

Bailey graduated from Screenwise in 2023 where he performed in an American Accent Showreel piece as well as two other showreel scenes in hand with a theatre performance in front of friends, family, agents and casting directors.
