ARTIST STATEMENT

People watch Movies everyday. Narrative is as essential to our lives as fitness, diet or spirituality. It's everywhere you look. All I wish to do in this life is foster these stories, and elevate them to a place where they speak to people all over the world. To leave my own ‘painting in the cave’ if you will. I was raised in dodgy little towns all over Queensland. Alongside my Brother, Jack Kenny, a fellow Actor - I hope to change my destiny from being Tradie or a Miner, and instead become an Artist in a profession so far detached from the world I was raised around. I'm on my own hero's journey deep into the unknown. Let's make a movie.
