ISABELLE YEN

ABOUT ME

As an actress and producer, with a passion for telling emotionally resonant, cross-cultural stories that linger long after the credits roll. Born in Singapore and now based between New Zealand and Asia, I bring a unique blend of eastern and western influences into every role. My performances are grounded in training and also shaped by on set experiences across tv dramas, commercials and films.

Whether in front of the camera or behind it, my vision is to spark empathy and bridge cultures through honest, emotionally grounded narratives.
