

# DANICA JENNER

---

Danica is a bubbly, down to earth girl who likes to make others laugh, and she aims to bring this energy to the roles she fulfils. Being born and raised in Darwin, NT, don't be surprised if you see her running around barefoot, or in her "going out" thongs/flipflops. As well as acting, some of Danica's other hobbies include reading, cooking, pole dancing, browsing realestate.com and hanging out with her son (cat), Percy. Danica Jenner unfortunately has no relation to the Kardashian-Jenner's, but she's still a good time to be around. Having worked on commercials & independent feature films, and training weekly, she can't wait for her next role!
