---

### **INDUSTRY FEEDBACK**

"...an infectious enthusiasm..."

Sue Maslin, Order of Australia, and Executive Producer (The Dressmaker, Japanese Story)

"Jessica brings great talent and skill to her creative projects... a tremendous asset to any creative endeavour."

Tim Ferguson, Writer, Director, Producer and Actor (Doug Anthony Allstars, Spin Out)

"...she instantly impressed me as a passionate and highly dedicated artist... Jessica possesses personal qualities that I've found (over many years in the profession) to be far more important to success than most people realize. She's kind. She's supportive of fellow artists. She's a listener. She craves knowledge and growth—both personal and artistic. Her intelligence and perception are off the charts. I've seen a great number of people attempt to make their way through this career, only to be done in by their lack of these very qualities. Jessica, conversely, is exactly the kind of person that people want to work with, which bodes well for her future... I'm a believer in callings. It's hard to convey in words the depth of my belief in Ms. Hutchinson as someone with the calling to carry on the legacy of this art form. She's a true artist, in the sense that creativity seems to come as naturally to her as breathing. I for one am excited to witness her journey as it continues."

Michael Kostroff, Actor (The Wire, The Plot Against America, Wizard of Lies)

"... a joy to behold. She is always brimming with ideas, bursting with enthusiasm... I would work with her in a heartbeat."

Andrea Buck, Executive Producer (The Jammed, Nazi Undead)

"Jess has fire in her belly and is extremely passionate about story... She is highly focused and driven. Her enthusiasm is infectious."

Dee McLachlan, Director and Producer (The Second Jungle Book, The Jammed, The Soldier Protocol)

"I do know true talent when I see it, especially when it comes with the drive and passion required for a successful career in the film industry. Jessica is one of these truly talented, passionate individuals who can bring out the vulnerable side of a character or use her incredible comedic timing to tickle the audience's funny bone... Jessica is a generous and caring individual, selflessly offering to assist me with my projects during her down time simply due to her passion for storytelling and her love of film and character. She has been instrumental in the development of several projects and has indeed helped my other writers create stronger storylines and deeper characters. She loves seeing others succeed, a rare quality in this industry indeed."

Lucinda Bruce, Producer (Phi and Me, The Party Bus, Choir Girl)
