

Alicia holds an Advanced Diploma of Arts (Acting) and has trained in the Stella Adler (NYC) and Howard Fine technique. Recently you would have seen her maternal instincts shine in commercial work such as the NDSP Plan Managers TVC and Uniting SA's "Hope Sweet Hope" Winter Appeal campaign.

When not on a film set, you'll often find Alicia working as a Standardised Patient (SP) role-playing for Medical students or watching the latest Grey's Anatomy ep (yes, currently Season 22).

Alicia is a passionate Equity member and is focussed on working in the industry as an actor and performer in film and TV. She's looking forward to being in the next big hit Medical Drama!
